

Inspiring CPD outdoors!

- Would you welcome FREE* twilight CPD?
- Are your teachers keen to enhance curriculum delivery outdoors?
- Inset days or half days also available.
- Team teaching and co-delivery of pupil workshops

Interactive CPD sessions can enthuse teachers and give new focus to their use of your outdoor learning environment all year round! (EYFS to YR6) Topics include literacy, numeracy and science focused new ideas for using your own school grounds. The training will take place mostly outdoors (suitable clothing is essential!) and for longer courses we shall tailor specifically to your need.

*As an introductory offer, we are able to provide free twilight CPD to schools within 20 miles of Colwall. (Beyond that a mileage charge will be made) or Free twilight CPD associated with a paid-for Outdoor Play and Learning Advisory Visit for schools in Herefordshire and Worcestershire.

I particularly valued Felicity's educational expertise and the importance she placed on enhancing the quality of young children's learning experiences in the outdoors. "Head-Infants

"I feel reinvigorated, and shall put some of this into practice tomorrow!" EYFS teacher

"Inspiring ideas and good presentation style. My staff were very positive after your visit. Thank you" Head - Primary

"I was sceptical about the value of this Yr6 maths outdoors, but have tried it. It works and it really made them think!" Yr6 teacher

"Felicity has deep understanding and wide knowledge of the science topics, making it easier to introduce new vocabulary. The children thoroughly enjoy the sessions and remember the activities for a long time." Yr3 Teacher

This is typical feedback from head teachers and teachers.
